

Read your EOB with ease

An Explanation of Benefits (EOB) is a document we send to notify you that a claim has been processed. It's important to remember that an EOB is not a bill but rather an explanation of which healthcare provider filed a claim on your behalf, the nature of the claim, whether it was approved, and for how much. We urge you to review all EOBs carefully to make sure the information is accurate. Keep reading to learn how to decode your EOB.

This guide explains the different aspects of a medical claim including Procedure Codes, Amount Claimed, Discounts, Policy Deductibles and Remark Codes to determine the Total Benefits and Patient Balance.

1. In the upper right portion of your EOB you'll find general information. If a payment was made to the provider, you'll see the check details in the top boxes. Below that are things like the claim and policy number, your ID numbers, both the insured's and the patient's name, as well as the provider's name and address.
